The Russian plot, as it is understood among European diplomatists in Washington, is to stir up the anti-foreign elements of the population, and under cover of disorder, to land troops which should forever remain in the Chinese capital, permitting Russia gradually to extend her suserainty over the empire through the connivance of the Queen Dowager.

PEKING, June 6.—[By Asiatic Cable.] The situation is growing steadilly worse. Events move with such rapidity, and affairs, owing to the exeltement of the natives, are so critical that the foreign ministers hold frequent meetings. They feel the need of a free hand for energetic action, without a perpetual reference to the home governments.

Sir Claude MacDonald, the British Minister, is wiring for seventy-five more marines. Native employes who have returned from Feng Tai, say they left the "Boxers" openly drilling in the adjacent village.

A strong imperial edict, issued this evening, censures the "cowardiness of the imperial troops," and orders the viceroy of Pe Chi Li and Gen. Jung-Lui immediately to suppress the "Boxers".

WASHINGTON, June 6.—(Exclusive Dispatch.] Russian intrigue is at the bottom of the present antiforeign insurrection in China. It was through Russian machination that the Empress Dowager was led to encourage the "Boyers" to make a demonstration of force. The Empress Tel An is "one she devil. "The gravest anxiety as to the future of the complications in China is felt at European embassies and legations here, and it is from one of these that the information given in this dispatch was obtained. Our own government has exceedingly meager advices from China, but the foreign embassies and legations are better supplied.

Germany, Great Britain and Japan have a thorough understanding converning the Russian plot. They will staud together in resistance to the expected encreachments of the great Russian power. If Russia science 9 the supplied of this tact alliance of the three antions most directly interested in China. Though there is great anxiety as to the outcome of this Russian conspiracy, the most conservative diplomatists do not believe there will be a war between the powers.

It is well known that it is Russian policy to pursue aggression just as far as possible without the rupture of peace, and no further. Accordingly, it is believed there will be no Russian co-

Gen. Baden-Powell has extended martial law to the Marco and North Lichtenburg districts. Shots were exchanged between Boer and British patrols eighteen miles east of Mafeking May 28. Part of the forces lately at Pretoria are reported to have gone westward to meet Baden-Powell and to make a show of holding the country through which he and Gen. Hunter are moving.

tailed description of this supressent, and helps thereby to dignify the suity of the British troops into the capital. LONDON, June 7, 2:15 a.m.—[By At lamite Cable.] Milliary operations in South Africa are apparently at a standistill. For a day or two, the tired troops of Lord Roberts's army are resting, and he is filling the magazines and warehouses at his new base. Pretoria, perparatory to a long chase after the retiring Boers in the direction of Lydenburg. He cavalry are apparently seeking to intercept Commandant-General Boths.

Some dispatches are to hand, which her Pretoria Monday, while the fighting was going on outside the city. They come by way of Loreno Marques. One of them says: "Toward the end of the day, when the British naval guas were of projectiles burst. damaging the suburbs. All day armed burghers have been leaving Pretoria, going east. The greater part of the railway rolling stock has been removed. Gen. Boths was fighting an essentially rear-galard and the reston, his object being not to defend Pretoria, but to delay Lord Roberts until the railway switch had been cleared and the main part of the Boer army had started to withdraw. The British advance appears to have left open to the Boers the best lim of retreat along the railway."

Possibly Lord Roberts may have been able to cut the railway before a full retirement was effected. That Pretoria would be defended was apparently given out after the council of war, with a view of misleading the British. Lydenburg, the district to which the provisions originally destined for Pretoria have been diverted, and the provisions originally destined on the provision originally destined for Pretoria and the facility with which it could be entered and the main part of the Boer was able to cut the railway before a full reterment was effected. That Pretoria would be defended was apparently with a strong body of cavalry, and there is much native labor available for fortile valleys, inclosed by great remained to the provision originally destined for pretoria arri

After a few hours of maneuvering, the capital was left defenseless. The forts, constructed at the expense of the mine owners and strengthened during the war were abandoned, the Creusots and Krupps and the famous Long Toms, which were to render Pretoria impreenable, were taken east to the mountains and the capital, which President Kruper's burgbers had boasted would be defended for month after month, was surrendered after a single feeble engracement.

The facility with which Johannesburg and Pretoria have been taken leads many military men to suspect that there has been a socret understanding between President Kruser and the British government, by which the war will be brought to an end without unnecessary loss of life and wasteful destruction of property. This theory, while plausible cannot be proved, since neither President Kruser nor Lord Roberts will admit that there has been any secret intrigue or that the closing scenes of the war have been prearranged in any sense. The safer seneralization is that the Boers have fought vanishment of the problem in the dynamics of war. He has known how much force was needed on the advance line and what kind of force and how to protect his line of communications most effectively by operations on the eastern flank, under Gen. Rundle.

the advance line and what kind of force and how to protect his line of communications most effectively by operations on the eastern flank, under Gen. Rundle.

The campaign may now be said to have ended west of the line drawn from Pretoria to Ficksburg. Gen. Hunter's division is reported to have entered Lichtenburg. Lord Methuen will prohably turn up at Potchefstroom and Gen. Baden-Powell and Gen. Carrington will occupy Zeerust and Rustenburg. The occupation of Pretoria will probably dishearien the Prec State forces, and the Bethlehem. Harrismith and Vrede districts will be gradually overrun by Gen. Rundle's forces. The remaining operations of the war will be restricted to the Lyderburg district, to which the forces still holding Laing's Nek must reveat through Ermolo.

There are many signs that the struggle will end in the course of a fortnight, and the details of the surrender of Pretoria, communicated by Lord Roberts at midnight, support this view. From Lord Roberts's report it appears that the Boers were driven hack fairly into Pretoria in Morday's engazement, and that the surrender of the town was demanded. Gen. Boths proposed an armistice for cettling the terms of surrender and Lord Roberts enolled that there could be no conditions. Gen. Boths decided against any attempt to defend the town and the retry of the troops during the afternoon, as had been done at Johannesburg. The wives of President Krusny and Gen. Boths remained in the town and no attempt to defend the afternoon as had been done at Johannesburg. The wives of President Krusny and Gen. the House would not consent to the amendment providing for an armorphate factory to be operated by the government.

A compromise proposition was presented by Mr. Penrose of Pennsylvania, and after hours of debate finally was adopted by a vote of 39 to 35. The discussion of the proposition developed an unusual bitterness of feeling, and charges of robbery and political corruption were hurled about the chamber with an abandon, which, if they had not fallen from the lips of grave Sentators, would have been regarded as reckless. Little worse ever was heard in the heat of a political campaign.

Three o'clock, the hour agreed upon for final adjournment, was passed, and still the Senate wrestled with the armor question. When the Penrose proposition finally was agreed to, it was supposed the way was clear, but late tonight another disagreement was reached on the Naval Bill, and the Senate took an adjournment until 11 o'clock tomorrow morning.

The evening session presented a brilliant scene, the galleries being thronged with a gay and fashionable assemblage. All were immensely entertained, as Senators Carter of Montana, Mason of Illinois, Turner of Washington and Money of Mississippl kept the Senate on edge with rattling political speeches.

When the House tonight at 16-39 o'clock took a recess until 19 a.m., to-morrow, the two chambers of the national Legislature, with hoads down and horns locked, were in a desperate struggle over the item in the Naval Appropriation Bill relating to ocean europe. The final adjournment of Congress is postponed until it is over. The proceedings in the House during the day were tame and without dramatic incident. This was partly due to the fact that the firm position taken by the House on the armor-plate provision transferred the fight to the floor of the Senate, and partly to the obstinate refusal of Mr. Lents held the House by the throat all day, and except for privinged matters, things legislative were graceled to allow the testimony in the Coeur D'Alene investigation to be printing d

legislative were gractically at a statis-still. But tonight there was enough excite-ment to compensate for the duliness of the day session. The House got its dander up over the failure of its con-ferees to abide by their instructions on the ocean-survey item, and after an

REGULAR SESSION.

[A.F. DAY REPORT.]

WASHINGTON, June & SENATE.—

At 10 a.m. today the Senate reconvened
a prepare for final adjournment. A
core of Senators only were present,
but the chamber rapidly filled. The
filled the conference, all the
about and Sundry Civil Appropriation
bills remained in conference, all the
about having been agreed to.

The usual routine business practically
sas abandened today. Only two or
hree new bills and resolutions were
resented. Mr. Carter secured the pasage of a bill providing for an increase
a 157.60 of the limit of cost of the
abilic building at Helena, Mont.

A races was then taken to await
be presentation of conference reorder. When the Senate , reconsent at 10:20 o'clock Mr. Alison reported from the Commitison appropriations the House conurrent resolution providing for final
djournment at 3 p.m. today. The
similate had made no amendment,
t was permitted temporarily to lie on
the table.

Mr. Hale presented a conference re-

In explanation of the conferees, Mr. Sewell said the House conferees, Mr. Sewell said the House conferees had insisted upon this increase in the corps of cadets at the Military Academy, and the conferees of the Senate, knowing that a similar provision had been in another bill, he felt justified in yielding to the House

at 4:39 o'clock, and after being in session fifty-five minutes without accomplishing anything, took a recess until 1:25 o'clock.

When the Senate reconvened at 2:25 o'clock, Mr. Hale announced that the conferees on the Naval Appropriation Bill had agreed to a final report, and it probably, in a brief time, would be sent to the Senate from the House.

Mr. Allison, chairman of the Appropriations Committee, presented in tabulated form a statement of appropriations made during the seasion. He said the principal increases were in the appropriations made for the navy and army, and the Postoffice Department, and in items of the Sundry Civil Bill.

When the suggestion was made by Mr. Cockrell that an informal recess be taken until the naval conference report was received from the House, Mr. Carter of Montana said the time spent in awaiting the report 'might be employed profitably by the anti-expansionists in submitting their views on the Oregon election." He directed attention to the fact that Representative Tongue, who, four year's ago, was elected by only 65 majority, had been rediccied this week by a majority of more than 3000.

"Oregon," said he, "gives a Republican majority of 10,000, and this man Tongue, who has consistently supported the present administration, Porto Rican tariff and all, has a known majority of more than 1800, and the back countles are yet to be heard from. It seems to me that the time might be spent well in hearing the explanations of the anti-expansionists for this condition of affairs in Oregon."

planations of the anti-expansionists for this condition of affairs in Oregon."

"If the Senator from Montana," suggested Mr. Cockrell, "will introduce a resolution declaring the Senate a political debating society, we will enter upon its consideration."

"I have sometimes thought," said Mr. Carter, "that the legitimate functions of this body have been preverted. It has become a place from which the most vile and veryoneous political fulminations are huried at men in public life."

Mr. Carter said much of the abuses unfered by Washington and Lincoln and Grant had been very like the abuse heaped by innuendo and insinution upon the preparent President. Washington, Lincoln, and Grent had been assalled and opicieted. He predicted victory for McKinley this fall. The first gun of the campaign had been fired in Oreson, which has given a Republican majority of 10,000 in favor of the Forto Rican tariff, and despite the erring, wandering way of a man said to be a criminal in Cuba. Mr. Carter then entered upon a general discussion

The House passed a few bills of minor importance during the afternoon by unanimous consent. A number of requests for unanimous consent were proferred, but Mr. Lents of Ohio objected on the ground that his personal rights were being invaded by the refusal of the majority to allow the printing of the Coeur d'Alene testimony. The House spent most of the time in recess.

PRIVATE BILLS.

| A. F. NIGHT REPORT.]

WASHINGTON, June 2.—As the day were on, there were some amusing incidents. Mr. Green of Massachusetts asked unanimous consent to consider a bill to establish a "lobster hatchery" in Maine. The mention of the object of the bill created much merriment.

"Until we have the Coeur d'Alene testimony printed." observed Mr. Lents of Ohio, "we will have to deprive ourselves of lobsters. I object."

After a brief recess a hundred or more members with private bills were hustling for recognition, but Mr. Lents of Ohio had declared that he would object to unanimous consent for anything until an order was made to permit the printing of the Coeur d'Alene testimony. All members were referred to him, but none could persuade high to yield. Figuratively he had the House by the throat, but finally withdrew his objection against several bills of minor importance, including a Senate bill to preserve the rights of women who might marry after taking up homesteads under the homestead law.

The resignation of Mr. McPherson of Iowa, who has been appointed United States District Judge, was laid before the House.

Mr. Dolliver of Iowa asked unanimous consent to consider a bill to incorporate the Supreme Lodge of the Knights of Pythias.

"Inasmuch as I am a member of the order," said Mr. Lents, "and inasmuch as it has lodges in the Coeur d'Alene district, I will not object." [Laughter.] The bill was passed.

At 4 o'clock, Mr. Foss called the attention of the House that the Senate and equitable" price.

HURRY ORDER TO BATTLESHIPS.

[A. P. EARLY A.M. REPORT.]

WASHINGTON, June 6.—Secretary
Long has issued an order for an experiment of the utmost importance to
the navy. The purpose is to see how
much time would be occupied in putting into condition for active naval
service a part of the United States fleet
to meet an emergency.

The vessels selected for the experiment are the battleships indiana and
Massachusetts, now laid up in ordinary
at League Island with a skeleton organization of officers and about one hundred and fifty men under him. The
Massachusetts is under command of
Capt. Dickens commands the Indians,
and has six officers and about one hundred and fifty men under him. The
Massachusetts is under command of
Capt. Train with four officers and about
one hundred and fifty saliors. Ordegs
have been telegraphed Admiral Casely,
the commandant of the League Island
yard and the two captains above
named, to put the ships into condition
for immediate service to last at least
sixty days. No notice has been previously given of the department's intention. By the terms of the order the
ships must clear League Island inside
of three days. The officers who have
projected the experiment hope to do
better than that. The ships each have
about 60 tons of coal aboard, but must
be supplied with food, maps, bedding,
ammunition, etc.

The hardest question to deal with in
the present straints of the navy is that
of personnel. Officers were wired at
once and it was necessary to rob some
of the bureaus of the Navy Department
of much-needed assistance. The officer
most remote from League Island is
Lieut. Wilson at Boston, so that all of

RETIREMENT OF OFFICERS. DECISION IN PERSONNEL ACT.

(A. P. DAY REPORT.)

WASHINGTON, June 6.—Judge-Advocate-General Lemley has decided adversely the contention of the Navigation Bureau that in making retirements of officers under the terms of the pertion Bureau that in making retirements of officers under the terms of the personnel act, the officers should be retired in accordance with their rank, no lieutenants, for instance, being retired until all of the eligible captains had been retired. The Judge-Advocate holds that the intent of the act was to prevent wholesale retirements in one grade, which might be disastrous to the service, wherefore the law specified the number of officers which should be retired in each grade. The decision is practically a reaffirmation of one provisionally adopted at the outset of the application of the personnel act. Finest Summer

KANSAS CITY, June 6.—When the Democratic State Convention was called to order this morning the Credentials Committee was ready to report, and the prospects for rushing through the deliberations were bright. The committee had been in session till after midnight, and found against the police machines both here and in St. Louis. The Credentials Committee's report was adopted without debate. The platform was read and adopted with a whoop. It declares:

"We reaffirm and indorse the Democratic national platform adopted at Chicago in 1896, and declare our continued feality to the utterances therein enunciated upon the free, and unlimited coinage of silver and gold at the extrame the single gold standard bonk act of the present session of Congress, which places the control of paper circulating medium in the hands of the national bank corporations.

"We denounce as one of the most trying evils of the day the present industrial combines known as 'trusts.' We arraign the Republican party as guilty of the grossest hypocrisy in the treatment of this question, in that, being in the ascendancy in Congress, it has steadfastly refused to pass any of the legislation which has been proposed to curb the power of the trusts; has failed to withdraw tariff protection from trust-made goods; has constituted the leaders of trusts as the leaders of its party in the nation, and accepted from them contributions of millions of dollars to its gigantic cerruption fund, which fact in itself is a menace to the stability of our free institutions."

The platform reiterates achesion to the Monroe doctrine, and "deprecates the departure from its principles which have been made by the Republican administration in its war of conquest;"

[A. F. NIGHT REPORT.]

LEWISTON (Idaho.) June & The forces of Gov. Steunenberg triumphed today in the State Democratic Convention by seating the contesting delegation from Shoshone county, the vote being 15% to 7%. The result is a practical indorsement of Gov. Steunenberg's administration in the Cogur d'Alender, and the court d'Alender.

tation of those resonsible for the labor troubles.

On the preliminary vote to seat neither delegation, the proposition was defeated by a vote of 121 to 57. The vote on this content showed Steumenberg's control of the convention, and the opposition then gave way.

The resolutions passed indorse Bryan for President and Col. James Hamilton Lewis of Washington State for Vice-President, and favor the fusion of all reform forces in the campaign. Delegates elected: Col. W. H. Dewey, at large; James W. Reid of Lewiston; W. B. McFarland of Coeur d'Alene, J. C. Stockstager of Hailey, E. R. Dockery of Boise, John G. Brown of Pocatello.

Col. Dewey is a cousin of Admiral Dewey. The convention adjourned at 10 o'clook.

[Exclusive Dispatch.] Henry Wasson and Elbridge Hart, two New York tourists, hold the record for riding the Erie viaduct at Lanesboro. The viaduct is over a quarter of a mile in length, and stands 300 feet from the ground. Wesson and Hart were making a bleycle trip from Buffalo to New York, and when Lanesboro was reached, Hart dared Wesson to ride the structure, supposing that they could go between the rails. When it was found that the outside coping was the only place available, Hart tried to back out, but Wesson laughed at him and wagered \$50 that he dared not ride to the first time 1:23%.

'A. P. DAY REPORT.!

LONDON, June & 19:28 a.m.—[By Atlantic Cable.] Lord Roberts telegraphed to the War Office as follows:

"PRETORIA, June & 5:28 p.m.—The occupation of the town passed off most satisfactorily, and the British flag is now holsted on top of the government offices. The troops met with a much more enthusiastic reception than I anticipated. The Third Battalion of the Granadier Guards lined the square when the march past took place."

cial accounts. Mrs. Martin and thirty-four women scooped in by the police, were before Magistrate Flammer this morning, and all were discharged except Mrs. Martin. The court scored the police for arresting the women found in the place, for their mere presence was no offense, Mrs. Martin was held for action by the grand jury, with bail fixed at \$500. Mrs. Martin is defiant, and threatens to expose the police for bribery.

BANQUET TO DE YOUNG. ELABORATE AFFAIR BY THE COM-MISSION TO PARIS.

[A. P. NIGHT REPORT.]

PARIS, June 6.—[By Atlantic Cable.] The California Commission gave an elaborate banquet this evening at the Hotel Rits to Michael H. de Young, honorary commissioner for California and proprietor of the San Francisco Chronicle. The details were sumptious, and all the speeches complimented the spiendid display made by California and the assistance rendered by Mr. De Young.

Among the speakers and others who were present were Gen, Horace Porter, United States Ambassador; United States Consul-General Gowdy, Commissioner-General Peck, Henry Peartree of the American Chamber of Commerce in Paris, and George W. Och, manager of the Peris edition of the New York Times.

OPPOSE GOMEZ'S PLAN. CUBAN PAPERS ARGUE AGAINST AMALGAMATION OF PARTIES.

HAVANA, June 6.—[By West Indian Cable.] All the political parties, through their representative newspapers, have pronounced against the plan of Gen. Maximo Gomes to amnigamate the party organisations. Members of the Cabinet say the scheme is not feasible, as such an election would not carry any official recognition from the United States.

More than falis, they assert that an amaigamation is unnecessary, as they have an assurance from the United States government that a convention will be called as soon as possible after the elections of all the elected mayors, to form a constituelon, which will be presented for ratification to the next Congress. Consequently, as they argue, if Gen. Gomes were to carry out his plan of taking a plebiscits, it would make even the friends of Cuba believe it impossible for the Cubans to do anything without fighting among themselves.

compliance with processes of the Service of the Complete of th

eral hard blows, but at no stage of the game was Tremble in distress from the punishment received.

Up to the ninth round the exchange of blows was about even. Before this round Tracy had confined his play to body blows and had landed several hard ones on the wind. Tremble had played for the heart, but had been able to send some effective shots to the face and Jaw. In the ninth Tracy changed his tactics and played for Tremble's Jaw, which he reached. The latter responded with a like blow and in a general mix-up that followed, several hard blows were exchanged.

The tenth round was one of the fastest of the contest, and it was all Tremble's. He forced the fight, landing several punches that had Tracy guessing before the round closed.

The rounds that followed were fast and furious. In the fifteenth Tracy landed once in the clinch and there were cries of "foul," which the referee wisely ignored.

The closing round was Tremble's. He fought hard for a knock-out, and had the fight lasted five rounds more it was the opinion of many that he would have won out. His showing was a surprise, and should a return match be arranged he would be a strong favorite.

While there were many who believed that Tremble should have been given the fight, the majority accepted the referee's decision as being just and fair.

TODAY, TOMORROW AND SATURDAY-A THREE-DAY SALE.

Sale of Summer Underwear and Hosiery For Men, Women and Children.

This happens once every six months—and lasts but three days. We couldn't afford to continue such prices longer.

A good many people are in the habit, at these times, of laying in a supply. And why not? Prices are lower than at any other time,

Some a quarter, some a third, some a half under usual asking-and good, preferable garments. Because the prices are less than others ask is no reason why the qualities are less. With a few exceptions the goods are taken from our regular stocks - no better made, prettier or more comfortable garments anywhere.

The permanent policy of redeeming its stock on demand renders the California Consolidated Petroleum Company as safe as a bank. Any shareholder may at any time within thirty days from the date of his certificate get, upon demand, every cent of his money back. All money paid in installments will also be refunded on demand at any time within thirty days from dote of first payment. This policy will be faithfully carried out, not for a few days, but for years, as the California Consolidated Petroleum Company is in the oil fields to stay, and will protect with its own capital its shareholders. This is a solid company, backed by solid men, who have folth in the stock, and who will back their faith with gold coin. Call or write for prospectus, room 212 Laushlin Building, Los Angeles, Cal. TORPEDO-BOAT GOES FULL TILT

(BT DIRECT WIRE TO THE TIMER.)

NEWFORT (R. L.) June 6.—[Exclusive Dispatch.] The torpedo boat Dupont was seriously damaged this afternoon while being docked at the torpedo station, and as a result will have to be provided with a new bow. Under command of Lieut. G. H. Brown she had been to Providence with the members of the torpedo class, and, returning, was running into her slip at the station. These boats can be reversed so quickly that they run almost full speed right into the slip. This was done tonight with serious results. The signal was given to stop and geverse, but in some way the engine did not respond, something jamming, and she plunged into the wharf, crushing her bow in nearly six feet.

The water-tight compartments prevented har from sinking. She will have to be sent to Bristol for the Herreshoffs to give her a new bow. It is understood that no blame can be attached to those in charge.

NAVAL CONSTRUCTOR NEEDS CHANGE OF AIR.

INT DIRECT WIRE TO THE TIMES.]

WASHINGTON, June 6.—[Exclusive Dispatch.] Naval Constructor Richmond Pearson Hobson has been condemned by the medical survey board on the Asiatic station, which recommends that he be relieved from his present duties and ordered home at once. Cablegrams to that effect were received today from Rear-Admiral Remsy, who said that the services of another constructor were required at Cavite naval station at once, to carry on a large amount of repair work.

Constructor Thomas F. Ruhm, who is now on duty at the works of Lewis Nixon, Elizabethport, N. J., will receive orders tomorrow to proceed to the Asiatic station. Hobson will be given sick leave to recover his health.

BIG DAMAGE SUIT BEGUN.

A. J. Padan, a book-keeper, has berun suit sgainst Magdalena C. Levy to recover a judgment for \$15,89, a arge portion of which sum 2 asked as damages.

On March 16, 1906, defendant is alleged to have contracted with plaintiff to employ him as her book-keeper and inancial agent for one year, commencing April 1, at \$100 a month. On May 8, however, he was discharged with only two months' salary, and now be asks to recover the balance of \$1000, tilli said to be due under the contract. The only reason, he says, given for his discharge was that she had sold her business, and that she could no onger utilize his services.

For the elleged damage suffered by his discharge, from the standpoint of redit and reputation, plaintiff asks for \$7500, and he also alleges, as a third sause of action, that defendant, without probable cause and with intention injure him and prevent his bottained my employment, causer his property, wen to his wearing apparel, to be attached, to his damage in \$5000.

seldom in the history of the house have we been able to offer such exceptional values in black dress goods as we will place on sale thursday, june 7th. It is rarely that an opportunity of this kind is afforded to secure a black dress at a nominal figure, as blacks are always considered staples. a glance at our show window will readily convince a casual observer of the true merits of above statement. among the legion to select from will be found all the latest weaves from foreign and domestic looms, including jac quards, perole, crepon, grenadine, mohair, poplin, venetian and cheviots, there is not a piece in the entire collection retailed for less than \$1.25, and some as high as \$2.50, our clearance sale price for your choice

the contractors for a conference, at which the position of the Building Contractors' Council shall be explained and negotistions for a settlement of the long warfare between employers and employes may be opened. The contractors' communication to the various building trade unions has been productive of results. Thus far it has not met with a refusal to appoint delegates to the conference as requested and several unions have voted affirmatively on the proposal.

So far as could be learned last night, the following unions affiliated with the Building Trades Council have taken action in authorising the appointment of two representatives from each who are not delegates to the council: Journeymen plumbers, journeymen steamfitters innic steamfitters brick-

NEW OIL COMPANIES.

It is the exception rather than the rule now for a day to pass in Santa Ana without a new oil company being formed or incorporated. The latest is the Fullerton-Riverside Company, with a capital stock of \$550,000, of which amount \$150 is paid up. The principal place of business will be at Fullerton and the board of directors for the ensuing year will be P. G. Balcom, Santa Ano; C. C. Chapman, J. G. Hanst, E. P. Wightman, Jacob Biern, E. C. INTEREST IN A WILL CONTEST.

SANTA BARBARA, June 6—(Regular Correspondence.) A good deal of interest is manifested in the Franklin will contest which is on trial in the Superior Court before Judge Oster of San Bernardino, the jury having been dismissed. The case involves the will of William A. Franklin, who, with his wife, came to Santa Barbara county several years ago. Mr. Franklin was possessed of some wealth, and left a will bequeathing property to his children by a former wife. Mrs. Franklin No. 2 has brought suit against the heirs, claiming that the estate of Franklin became involved and that she furnished him money, in proof of which she exhibits his interest-bearing note aggregating upward of \$70,000, which represents nearly double the value of the estate.

OIL NOTES.

The numerous transfers of oil lands during the past two weeks have created considerable excitement in the business circles of this city. The company, composed of ex-Gov. Markham, Coffin, Daggett, and other Fasadems capitalists, operating on the Ayers ranch on the Casias, have struck oil at 200 feet. It is not in large quantities, and the drilling will continue. Tom Chrisman has sold his oil right to 370 acres, eight miles up the coast, to Anaheim investors headed by H. Cahan, for 3000. Hobson Brox. have sold 260 acres in the same vicinity to Graham & Loftus for 220 per acre. Freek B. Dennis has sold a lease on the Reseast ract, containing seventy acres, for 1800. This lease was purchased by Fullerton operators, who will commence drilling at once. It is expected that five or six strings of tools will be running up the coast within the next few weeks. The machinery for the Sulphur Mountain Oil Company is being installed. The Denison ranch oil right in Upper Qiai, has been sold for 185.00. The Vancuren and McDonell oil rights have also heen sold.
